

Comhairle Contae Lú  
Louth County Council

Wednesday 1<sup>st</sup> February 2017

To whom it may concern:

Edwards Brothers was appointed by Louth County Council to carry out urgent repairs to the ruined Hospital of Saint Mary d'Urso in Old Abbey Lane, Drogheda in 2015 and again in 2016, a project jointly-funded by the Heritage Council. Edwards Brothers submitted the most competitive price for these works in both 2015 and 2016, allowing us to do much more with our limited budget than we had expected to achieve. Edwards Brothers did not cut corners to achieve these excellent prices. We have found their work to be of a very high standard, in full sympathy with and understanding of the conservation objectives of the job. Health and safety procedures were subject to regular inspection by our consultant and given a clean bill of health.

Edwards Brothers have shown a positive, flexible approach to the job and to our changing requirements. We were very pleased to have been able to get Edwards Brothers to work for us and hope to be able to use them again. We have no hesitation recommending them to others, based on our direct experience of working with the company and we wish them every success in future.

Please feel free to contact me for further information,

Yours faithfully,

Brendan McSherry
